

MEHTAB ALAM WARSI

React Native Developer

Mumbai, India

mehtabwarsi3@gmail.com

PROFESSIONAL SUMMARY

Results-driven **React Native Developer** with **1.5+ years of hands-on experience** in building, upgrading, and maintaining **production-ready mobile applications** for Android and iOS. Proven expertise in **QR-based systems, multi-app ecosystems (customer/partner/delivery), React Native version upgrades, API integration, performance optimization, code refactoring, and RTL (Arabic) language support**. Strong focus on clean architecture, scalable code, and smooth user experience.

TECHNICAL SKILLS

- **Mobile Development:** React Native, TypeScript, JavaScript
 - **State Management:** Redux Toolkit
 - **APIs:** REST APIs, Async data handling
 - **UI/UX:** Reusable components, responsive layouts, RTL support
 - **Performance:** Optimization, bug fixing, smooth rendering
 - **Tools:** Git, Debugging tools
-

PROFESSIONAL EXPERIENCE

Software Developer (React Native / React.js)

Insta Courier & Logistics, Mumbai

May 2025 – Present

- Developed a **QR-based Attendance Management Mobile Application** using **React Native**, used for employee attendance tracking.
- Implemented **dynamic QR code scanning**, where QR codes automatically change every **5 seconds** to prevent misuse and proxy attendance.
- Built secure **QR-based login authentication** for users.
- Developed **Attendance History** feature allowing users to view past check-in/check-out records.
- Worked on **React Native performance improvements** and feature enhancements across the app.
- Successfully upgraded **React Native version from 0.73.1 to 0.80.0**, resolving compatibility issues, deprecated APIs, and improving stability.

- Upgraded and maintained **3 production mobile applications: Max Smart Bazaar (Customer App), Max Restaurant Partner App, and Max Delivery Boy App** (Swiggy/Zomato-style ecosystem).
- Refactored legacy and incorrect code, improving code quality, readability, and long-term maintainability.
- Optimized application performance by fixing inefficient logic, reducing unnecessary re-renders, and improving overall app responsiveness.
- Ensured smooth app behavior across Android devices with proper testing and bug fixing.

Additional Frontend Work (React.js)

- Worked on **FMS (Facility Management System) web project** using React.js.
 - Maintained and enhanced existing projects like **Max Smart Bazaar**, implementing code changes and UI fixes.
 - Collaborated with the team to understand business requirements and deliver reliable solutions.
-

Software Developer (React Native)

WDIPL – Website Development India Pvt. Ltd., Mumbai

August 2024 – May 2025

- Worked on **production React Native applications** including **Seezun** and **Amoz**.
 - Implemented **REST API integrations**, handled async data flow, and fixed production bugs.
 - Optimized app performance to improve load time and overall stability.
 - Built **reusable UI components** for consistent design across screens.
 - Implemented **Arabic language support with RTL (Right-to-Left) layout** in the Amoz app.
 - Ensured smooth cross-platform compatibility for Android and iOS.
-

React Native Intern

Lotus Intelligent System, Virar, Mumbai

2022 – 2023

- Completed a 6-month internship focused on **mobile application development using React Native**.
 - Built and styled basic UI components following design guidelines.
 - Assisted in API integration and backend connectivity.
 - Participated in debugging and fixing minor issues to improve user experience.
 - Gained exposure to real-world development workflows and team collaboration.
-

EDUCATION

Bachelor of Science in Information Technology (B.Sc. IT)

Vasai College of Science & Technology, Mumbai

2021 – 2024

HSC (Maths & IT)

Thakur Vidya Mandir High School & Junior College

2015 – 2017

PERSONAL DETAILS

- **Languages:** Hindi, English
 - **Marital Status:** Single
-

NOTES

- Available for immediate interviews
- Strong experience in production mobile apps, performance optimization, and React Native upgrades
