PROFESSIONAL SUMMARY

Product-focused React Native Developer with 2+ years of experience building and scaling production-level Android and iOS applications. Specialized in performance optimization, React Native upgrades (0.73 → 0.80), QR-based secure systems, multi-app ecosystems, and RTL (Arabic) language support. Passionate about clean architecture and delivering polished user experiences.

TECHNICAL SKILLS

Mobile	React Native, TypeScript, JavaScript
State Management	Redux Toolkit
Architecture	Re-render optimization, Code Refactoring, Component Reusability
APIs & Data	REST APIs, Async Handling, Error Handling
UI/UX	Responsive Layouts, RTL (Arabic) Support, Clean UI Architecture
Tools	Git, Android Studio, Debugging Tools

PROFESSIONAL EXPERIENCE

Software Developer – React Native / React.js *Insta Courier & Logistics, Mumbai*	*May 2025 – Present*

- Developed QR-based Attendance Management application with 5-second auto-refresh to prevent proxy check-ins.

QR Attendance App ▶ **View on Play Store**
Employee attendance system with secure QR scanning & 5-second auto-refresh
https://play.google.com/store/apps/details?id=com.msqureattendence

- Implemented secure QR-based login and optimized Attendance History with efficient list rendering.
- Refactored legacy codebase; reduced performance bottlenecks by eliminating unnecessary re-renders.
- Maintained and enhanced 3 interconnected production apps: Customer, Partner, and Delivery.

Software Developer – React Native *WDIPL – Website Development India Pvt. Ltd., Mumbai*	*Aug 2024 – May 2025*

Blue Star Support App ▸ View on Play Store
Client application with feature enhancements, API integrations & performance improvements
https://play.google.com/store/apps/details?id=com.bluestarsupport

Seezun App ▸ View on Play Store
Production React Native app with API integrations, RTL support & bug fixes
https://play.google.com/store/apps/details?id=com.newseezun

- Integrated REST APIs and managed complex async data flows across production apps.
- Implemented full RTL (Arabic) language support with proper layout mirroring.
- Built reusable UI components; resolved production bugs and improved application stability.

React Native Intern *Lotus Intelligent System, Virar, Mumbai*	*2022 – 2023*

- Built UI components and supported API integrations in mobile applications.
- Participated in debugging, feature improvements, and code reviews.

— KEY ACHIEVEMENTS

- Upgraded React Native from 0.73.1 to 0.80.0 across production apps, resolving deprecated APIs and build issues.
- Built dynamic QR system with 5-second auto-refresh preventing proxy attendance fraud.
- Maintained and scaled a 3-app ecosystem (Customer, Partner, Delivery) in a live production environment.
- Implemented complete RTL (Arabic) layout support ensuring proper UI mirroring across all screens.

— PERSONAL PROJECTS

One Tap PDF — *Android Application (Live on Play Store)*
Feature-rich PDF utility with Merge, Split, Image-to-PDF, Password Protection, dark mode, and offline-first architecture for secure file handling.

— EDUCATION

Bachelor of Science in Information Technology (B.Sc. IT) *Vasai College of Science & Technology, Mumbai*	*2021 – 2024*
